

# HEATED EYE WASH

**MODEL:** EW111 (indoor) EW111W (outdoor)

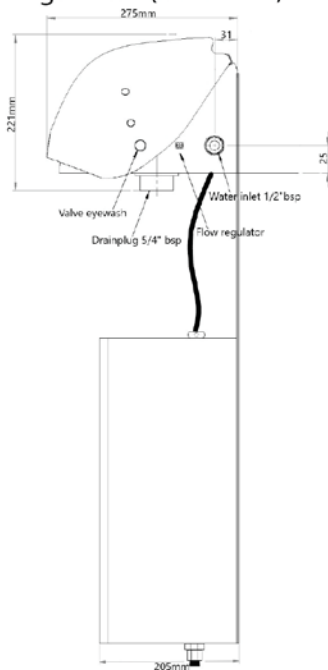

This frost-protected eye wash is equipped with a specifically designed, built-in flow heater. An infinite supply of tepid water is released upon opening the lid, which switches off immediately after use. This not only provides a huge energy saving but also reduces the chance of bacteria formation. This eye wash is manufactured in accordance to ANSI and EN standards.

## KEY FEATURES

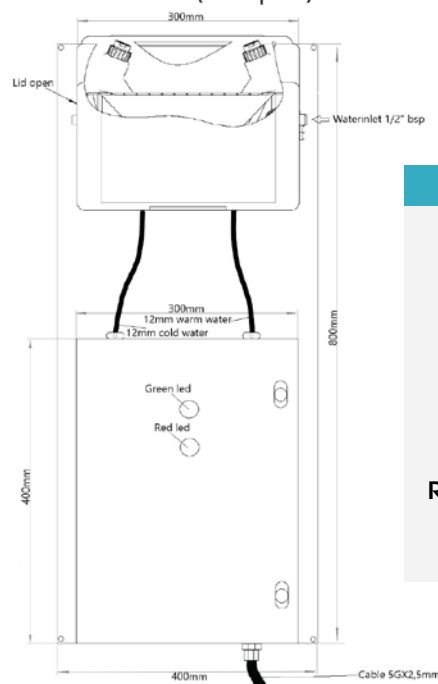

- Guarantees tepid water
- Internal water heater
- Suitable for indoor or outdoor
- Suitable for wall mounting

Right side (lid closed)

Front side (lid open)
